

Project Name:

Impact Statement: A vision for the ultimate benefit that could be realized for the project.

Priorities: This explains your rationale for doing this project – why is this important to do?

Assumptions: What are your basic assumptions underlying the planning of this project?

External Factors: What factors may affect the performance of the project that are “out of your control”....
i.e. environmental, political, economic, funding considerations?

Project Name:

Impact Statement: A vision for the ultimate benefit that could be realized for the project.

Inputs	Clients	Outputs	Short Term Outcome Measures	Intermediate Outcome Measures	Project End Outcome Measures
